

Can the Manufacturers Association of Maine Energy Program Help Your Business?

Members of MAMe’s partner associations (MGFPA MBB, MWPA) can now participate in the MAMe Energy Program. MAMe has endorsed Constellation as their energy supplier since 2007. Constellation offers members guidance on energy pricing options that give greater budget certainty if you want to lock in prices to minimize risk, or more purchasing flexibility if you want to take advantage of market fluctuations.

Why Choose the Manufacturers Association of Maine Energy Program?

- Customized energy offers specifically designed for manufacturers
- Free online energy management tools to track usage and billing
- Timely and accurate customer care services provided by local Constellation representatives
- Fully-negotiated multi-year contract terms give the option to lock in competitive prices for the short- or long-term
- Customers who participate in Constellation association energy programs such as the MAMe Energy Program tend to report better overall customer satisfaction

An Exelon Company

Now's the Time to Proactively Manage Your Energy Budget

Energy has become one of the top five expenses for many manufacturers, no matter what their size. Today, more manufacturers are looking to Constellation to develop energy strategies to help manage these costs. Whether your facility is looking for cost certainty with a fixed price solution; access to real-time market pricing with an index solution; or a more complex risk mitigation strategy, the MAME Energy Program can offer customized solutions for your facility.

Constellation is a leading competitive retail and wholesale supplier of power, natural gas and energy products and services across the continental United States. Constellation's family of retail businesses serves residential, public sector and business customers, including more than two-thirds of the Fortune 100.

Explore Your Energy Options

MAME endorses Constellation for electricity, and energy efficiency.

Constellation's integrated solutions are designed to help MAME members intelligently buy, manage and use energy. A direct relationship can bring the right solutions together quickly.
